www.grontmij.co.uk

As Europe's fourth largest sustainable design, engineering and environmental consultancy, Grontmij has a wealth of capability and experience in the built and natural environment.

In particular, through our recent integration of Whitelaw Turkington landscape architects and Roger Preston & Partners, specialists in building services, energy and environment, we now have an extended range of expertise to bring to bear on any project.

With a passion for creating enduring solutions we design elegant public spaces and sustainable energy solutions for buildings to enhance our living and working environments.

If you would like to speak to any of our specialists please visit our website.
